

Saluting The Reckoning

Diablo Swing Orchestra

Hello Mr Orange
How are we doing?
Cloud ear fungus
Who are we fooling?
Hello Mr Orange
All them lies can be soothing
First we feed it
Then we eat it
I just keep on snoozing 'til my numbers are improving
First we fear them
Then we smear them

We feed it, it is almost as we need it
We're paying the price that we've put on tomorrow
Trying our best to forget

What have we done?
Now we're at war with the sun
Trying our best to forget all about what's to come
This is our trial
Listen how we sing a denial
There's not even time to regret all that we have begun
I know what's at stake
We won't stop believing
I'll carry your weight
It's nothing but thieving
The end is all but a curtain call away
It's ours to take
We won't stop believing
Are we the mistake?
It's nothing but thieving
Make up you mind but make sure it's way too late

Hello, Mr Orange
Rally all the jelly
I said hello Mr Orange
I can see you on the telly

We feed it, it's almost as we need it
We're paying the price that we've put on tomorrow
Trying our best to forget

What have we done?
Now we're at war with the sun
Trying our best to forget all about what's to come
This is our trial
Listen how we sing a denial
There's not even time to regret all that we've begun
I know what's at stake
We won't stop believing
I'll carry your weight
It's nothing but thieving
The end is all but a curtain call away
It's ours to take
We won't stop believing
Are we the mistake?
It's nothing but thieving

Make up your mind but make sure it's way too late

What have we done?

Now we're at war with the sun

Trying our best to forget all about what's to come

This is our trial

Listen how we sing a denial

There's not even time to regret all that we have begun

I know what's at stake

We won't stop believing

I'll carry your weight

It's nothing but thieving

The end is all but a curtain call away
