

Devour the Subconscious

Diabolic

Our legion stands glorious, blasphemous
Again and again
We trample religious fucks
We will advance
Exalting our lord
Until slavery spans the whole of the universe

Hail! Evil!
Hail! Beelzebub!

Reeling in pain
In the halls of flame
I curse their souls in Jesus'' name
Blacking out resistance
In the path of Satan
Bow or die
Sacrifice!!!

Eternal, is our love for hatred
Undying, is our lust for war
Our blades are begging to cleave their flesh
Abysmal, is our wake of death

Their faith has reached critical mass
Jehovah''s reign of terror ends, at last
Our legion, victorious
Devour the Subconscious

Hail! Evil!
Hail! Lucifer!
