

## Useless Saviour

Diabolic

In the possession of hell  
Burning then burn forever  
Seven years of disaster  
The purveyor of doom  
Eventually plagues the world  
The souls of the fire will shine  
The rest consumed by wrath  
Writing of Satans left way path

Murdous dishonor of faith  
Heretic and heresy  
Thy will be done  
In the vista ration gone  
The absence of god  
Re human spirits of forever  
Lost and chilling time  
The rest consume my wrath  
Writing of satan's left with a path

Unblessed my brothers bleed  
Darkness enticed  
Diabolical demons  
Sent to drive  
Goddamn the holy spirit  
Driven back to hell  
Grateful to satans words  
Understand to his prayers  
At war with god's law  
Leave him with scars  
Drift through the path of sin  
To find the evil within  
To please the soul again  
Plagued with the memories

The nail is just the way of pain  
Dread of pleasure orgasmic pain  
In my sinister vans infernal soul  
Undaunted torment unhindered by shame

Satan bless me bless me Satan  
Satan bless me bless me Satan  
Satan bless me bless me Satan
