

Ghost Myself

Diamante

If I could build a fire and burn down my life
That would be the one thing I got right
Cuz I'm haunted by a shadow that I can't escape
See it in the mirror right behind my face
I could build a fire and burn down my life

Lately I could kill to be someone else
I wanna ghost myself
Try to stick it out but nothing helps
I wanna ghost myself
I'm freak, I'm a liar
Cut me out like a virus, oh
I wanna ghost myself
I wanna, I wanna, I wanna, I wanna, I wanna
I wanna ghost myself

Think I'll take my heart and throw it off a cliff
Yeah I got a feeling that it won't be missed
Let my body and my mind disintegrate
I don't want you to see me this way
Think I'll take my heart and throw it off a cliff

Lately I could kill to be someone else
I wanna ghost myself
Try to stick it out but nothing helps
I wanna ghost myself
I'm freak, I'm a liar
Cut me out like a virus, oh
I wanna ghost myself

If I could do it all over
I'd do it right
Cut loose all of the innocence
If I could do it all over
I'd do it right
Kill the stereotype
And start it all again

Think I'll take your heart and throw it off a cliff

Lately I could kill to be someone else
I wanna ghost myself
Try to stick it out but nothing helps
I wanna ghost myself
I'm freak, I'm a liar
Cut me out like a virus, oh
I wanna ghost myself
I wanna, I wanna, I wanna, I wanna, I wanna
I wanna ghost myself
