

Sleepwalking

Diamante

I said goodbye
But I still feel you deep inside me
Turn off the lights
Cold sweat from my aching body
Footsteps crawling all up the staircase
Trace one finger down my spine
Everyone thinks that I'm pretending
Both of us know I'm paralyzed
Try to lock you out

I feel you in my dreams
You're everywhere, you won't go easily
I see you in my sleep
So I'm wide awake to keep you far from me
I keep sleepwalking just to breathe
I feel you in my dreams
You're everywhere
The only remedy is sleepwalking

I don't know why
I keep hanging from the ceiling
Millionth time
I've tried so hard but you just won't leave me
Try lock you out

I feel you in my dreams
You're everywhere, you won't go easily
I see you in my sleep
So I'm wide awake to keep you far from me
I keep sleepwalking just to breathe
I feel you in my dreams
You're everywhere
The only remedy is sleepwalking

I'll give in tonight to this lullaby
You said: "Baby, don't you cry"
I can't escape and I can't erase
It's taking over me
Turn off the lights

I feel you in my dreams
You're everywhere, you won't go easily
I see you in my sleep
So I'm wide awake to keep you far from me
I keep sleepwalking just to breathe
I feel you in my dreams
You're everywhere
The only remedy is sleepwalking

I feel you in my dreams
Sleepwalking
I feel you in my dreams
Sleepwalking
