

# War Cry

Diamante

I am a robot  
I am a fuckin' machine  
I'm always strong and  
I will never be weak  
You only know me  
From what I'm letting you see  
Get's so lonely  
Living half underneath

Don't show it...

Shouting on the outside  
What I'm feeling on the inside

This is my war cry  
This is my war cry  
Maybe if I'm screaming  
Someone out there's going hear me  
This is my war cry  
This is my war cry!

My voice is shaking  
Need you to know who I am  
Don't wanna waste it  
But I don't know if I can  
I'm feeling naked  
I just need you to see  
What I've been keeping  
Living half underneath

I'll show it...

Shouting on the outside  
What I'm feeling on the inside

This is my war cry  
This is my war cry  
Maybe if I'm screaming  
Someone out there's going hear me  
This is my war cry  
This is my war cry!

This is my war cry!

Shouting on the outside  
What I'm feeling on the inside

This is my war cry  
This is my war cry  
Maybe if I'm screaming  
Someone out there's going hear me  
This is my war cry  
This is my war cry!

This is my war cry!
