

# I Made It

Diamond Rio

Mmmmm...

It was Louisville when I first saw that sign  
Said Nashville, I 65  
I had a J-45 Gibson riding shotgun  
And in the backseat  
Was everything else I owned  
I was gonna make it

I remember shaking, when they called my name  
To take the circle on that Opry stage  
To sing where the bluegrass boys  
Hank and Roy Acuff stood... the legends  
Though I don't know how, but there I was  
Yeah I thought I made it

We could feel high off the ground  
You never think you'll come back down

Oh, I made it to that mountain top  
Standing there was when I thought... it would be  
But from there I could see  
You girl, shining through  
Don't know what took me so long, baby  
But holding you I could finally say that  
I made it

Mmmmm...

I've been singing some of these songs for 20 years  
That's a lot of miles and baby, you're still here  
Oh, another town another day, another crowd another stage  
And all I ever want to do is get back home  
Yeah, no matter what, we're gonna make it

We made it to that mountain top  
Standing there was when I thought... it would be  
But from there I could see  
You girl, shining through  
Don't know what took me so long, baby  
Cause holding you I could finally say  
You're why... I go on  
It's been you... ooh

Girl, it's you, shining through  
Don't know what took me so long, baby  
Cause holding you I could finally say that  
I made it  
Mmmmm yeah  
I made it  
I... oh, I yeah  
Mmmmm...
