

# Just Love

Diamond Rio

Angel on the sidewalk  
Running from a nightmare  
What's she going to cling to?  
Just love  
Boy without a father  
Angry at the whole world  
Looking for the answers  
Just love

Just love her  
Just love him  
Just love  
Just love

Families torn and broken  
Coming back together  
How's it going to happen?  
Just love  
Sunday morning worship  
Everybody hears it  
Are we going to live it  
Just love

Just love her  
Just love him  
Just love  
Just love

Give us the courage and conviction  
To share the love we've been given  
With no boundaries or conditions  
Let us love just love  
Why can't we see it's all so simple?  
So don't hold back jump in the middle  
Big things can happen with just a little  
A little love just love  
Just love

We are going to make it  
Make it past the heartache  
Reaching one another  
Just love  
Just love  
Just love  
Just love  
Just love
