

# My God Does

Diamond Rio

My God, there I go again  
Keep messin' up when I think  
I can run the world  
Once more, out here at my wit's end  
Feel like I'm lost again  
Tossed again, I could use a friend

When am I gonna live  
When am I gonna learn  
When am I gonna finally figure out  
Where I can turn to find some sanity  
When everything goes crazy  
Where am I gonna go  
When I need some help  
Where am I gonna ever find  
The power to forgive myself  
When I don't have the love to forgive  
My God does

I swear I've been right here before  
Swearing I would never make  
The same mistakes again  
Nowhere to go but up from here  
I guess I had a prayer  
And all along, you were there

When am I gonna live  
When am I gonna learn  
When am I gonna finally figure out  
Where I can turn to find some sanity  
When everything goes crazy  
Where am I gonna go  
When I need some help  
Where am I gonna ever find  
The power to forgive myself  
When I don't have the love to forgive  
My God does

When I don't  
Gives me the will  
When I just won't  
Gives me the power  
In the hour of my need

When am I gonna live  
When am I gonna learn  
When am I gonna finally figure out  
Where am I can turn to find some sanity  
When everything goes crazy  
Where am I gonna go  
When I need some help  
Where am I gonna ever find  
The power to forgive myself  
When I don't have the love to forgive  
My God does  
My God does  
Um, yeah
