

Ride the Range

Diamond Rio

I like to ride the range
I like to ride all night
I like to ride the range
'Til I see the sunlight (yeah)

I like to ride the range (giddy up, giddy up)
I like to ride all night (all night)
I like to ride the range
'Til I see the sunlight yeah, that's right

The world behind, nothing but time
Out where the stars are falling
So far away, from yesterday
Can't hear your memory calling
That's why I ride the range

I like to ride the range (giddy up, giddy up)
I like to ride real slow
I like to ride the range (giddy up, giddy up)
Just listen to the wind blow (oh no)

I like to ride the range
Where the buffalo roam (giddy up, giddy up)
It's strange on the range (giddy up, giddy up)
But the way I feel, it feels like home (that's right)

The world behind, nothing but time
Out where the stars are falling
So far away, from yesterday
Can't hear your memory calling
That's why I ride the range

The world behind, nothing but time
Out where the stars are falling
So far away, from yesterday
Can't hear your memory calling
That's why I ride the range

I like to ride the range
(Giddy up, giddy up)

I like to ride the range (real slow) (giddy up, giddy up)
I like to ride, I like to ride, I like to ride... the range baby

(Giddy up, giddy up)

(Giddy up, giddy up)
