

## Make It Begin

Diana Anaid

You roll around me  
like a silent wave  
You touch my soul  
and make me crave you all over  
You share the secret  
sounds I make  
you build a love that  
fills a void  
You make my body shake  
You play that music  
that makes me wanna sing  
You shape my mind, you draw a picture  
you're my friend  
You understand the waves in my head  
that never crash and never end  
Make it begin  
Let me ride you  
let me find you there  
where the oceans touch the land  
The centre is space not time  
let's make a flight
