

# Like I'm Not Even Here

Diana DeGarmo

Out of all the places  
You had to walk in here  
With your brand new girlfriend  
Whispering in your ear  
You know this was our spot  
Where we laughed, where we fought  
Baby, thanks a lot

[Chorus]

I'm hiding over here in the corner of the bar  
And I'm trying not to look 'cause there you are  
And I'm dying  
This watered down drink is my only help  
Just trying to keep myself from crying  
You wouldn't even noticed if I broke down in tears  
You're lovin' her like I'm not even here

You never kissed me  
Or looked at me that way  
You said you'd miss me  
Guess that's just a line you say  
It hasn't even been five days  
Since your car drove away  
Guess I've been replaced

[Chorus]

I'm hiding over here in the corner of the bar  
And I'm trying not to look 'cause there you are  
And I'm dying  
This watered down drink is my only help  
Just trying to keep myself from crying  
You wouldn't even noticed if I broke down in tears  
You're lovin' her like I'm not even here

I caught your eye  
And it's too late  
You're coming this way  
You're not turning away  
What am I gonna say?

[Chorus]

You're walking up to me in the corner of the bar  
And I scream who do you think you are?  
I've been dying  
This watered down drink was my only help  
You should be ashamed of yourself  
I've been crying  
You didn't even notice that I broke down in tears  
You're lovin' her like I'm not even here  
Yeah  
You're lovin' her like I'm not even here
