

Stain On My Heart

Diana DeGarmo

Out of thin air, out of the blue
Out of nowhere you gave me the news
You had a new plan, but not with me
Couldn't think right, couldn't cope
You couldn't give me one glimpse of hope
The life we built together you erased so easily

Oh, I don't care what people think
Cause we both know you didn't do right by me
You can move through life like I was just a dream
But this stain on my heart won't let me forget a thing

Talked to my mama, went out with friends
But I can't do this, I can't pretend
That your new life, new love, your new world didn't leave me out to dry

Oh, I don't care what people think
Cause we both know you didn't do right by me
You can move through life like I was just a dream
But this stain on my heart won't let me forget a thing

Oh, no matter how many showers or much bleach
There's no way to erase your memory
So I'll wear this badge of honor for everyone to see
Cause your the best thing I learned about me

Oh, I don't care what people think
Cause we both know you didn't do right by me
You can move through life like I was just a dream
But this stain on my heart won't let me forget a thing
