

# Smoke

Diana Vickers

If my hands are cold  
And my voice cracks at hello  
Well lately I've been feeling kind of tired  
And if i seem a little strange  
Like something in me's changed  
Its just the way I look under the lights

And if you turn around  
And my glass falls to the ground  
It's only cos somebody knocked my hand  
And if i turn away  
Before i hear you call my name  
Then just remember baby I can't stand goodbyes

Goodbyes  
But if I cry  
It's not because my heart is broke  
It's only cos the smoke got in my eyes  
Yeah if I cry  
It's only cos I watched the show  
But pretty soon the smoke gets in your eyes  
In your eyes

Yeah I know you have your doubts  
Well I'm down but i'm not out  
And I told you i'd be fine  
I just need a little time  
And when you look into my eyes  
I won't let you back inside  
I'm surrounded by these walls  
I'm not missing you at all

If i turn away  
Before i hear you call my name  
Then just remember baby I can't stand goodbye

Goodbyes  
But if I cry  
It's not because my heart is broke  
It's only cos the smoke got in my eyes  
Yeah if I cry  
It's only cos I watched the show  
But pretty soon the smoke gets in your eyes  
In your eyes  
In your eyes  
Pretty soon the smoke gets in your eyes

Boy yeah for the last time  
Told you darling that i'm doing fine  
Nothing more than smoke in my eyes  
Boy yeah for the last time  
Told you darling i'm bad at goodbyes  
Pretty soon the smoke gets in your eyes  
In your eyes  
In your eyes  
Pretty soon the smoke gets in your eyes
