

Juno

Diane Birch

Governor says stay home
Safe in the arms of a lover
We've barely come back
From the summer
I wanna watch the sky comin' down
Like it's the end
Like it's the end

Juno it's over now
We're still standing up somehow
What's with all the fuss
What's with all the fuss
You're not so dangerous
Dangerous after all

Walkin' the air is no joke
Spinning the edge off the weather
It's any wonder you stick together
We're gonna hold up the sky
Comin' down until the end
Until the end

Juno it's over now
We're still standing up somehow
What's with all the fuss
What's with all the fuss
You're not so dangerous
Dangerous after all
