

Nite Time Talking

Diane Birch

Spreading out emotion like a feast
Sharpening the knives to meet the beast
I want all your worship, all your sins
No matter how you play nobody wins

Snow white sinner back to meet the light
Trash that letter I sent you last night
Spoken in the moment, honest prose
Thorns around the deepest color rose

Lady Rager bent on walkin'
That's just the nite time talking
Why danger, why so shocking?
You know it's just the nite time talking
You know it's just the nite time time talking

Spreading out devotion like a feast
Can't hold back desire for the beast
Go on save her heart from locking
Voices in her head aint stoppin'

It's just the nite time talking
