

# Superstars

Diane Birch

Butterflies don't compromise my reason  
What'd you say let's haunt our history  
Take me out we'll toast the change of season  
And swim the neon river to the sea

Take your time I'm hanging on forever  
You go hide and I'll go seek to find my clues  
We can spin this world right 'round together  
'Cause honey we just love to sing the blues

So listen up this one's for you  
Let's go dance on Mars, we're superstars tonight  
Just give it up, you know what's true  
Here behind the bars, we're superstars tonight  
Superstars tonight  
Superstars

Stay up late we'll wake up even later  
Just in time to watch the people going home  
Simple life you look so good on paper  
They got Bowie playing on the radio

So listen up this one's for you  
We got life on Mars, we're superstars tonight  
Just give it up, you know it's true  
Here behind the bars, we're superstars tonight  
Superstars tonight  
Superstars  
Superstars  
Superstars

So listen up this one's for you  
Let's go dance on Mars, we're superstars tonight  
Just give it up, you know it's true  
Here behind the bars, we're superstars tonight  
Superstars tonight  
Superstars tonight  
Superstars

We're superstars  
We're superstars
