

# Trampoline

Diane Birch

Trampoline  
You never give the high for free  
Can you feel me?  
Shaking in the weightlessness  
Falling for you

Gravity is my resistance  
Little fighter at a distance  
Always too far away  
But mine is the heart that's always loved you  
Stillness escapes beside you  
A little too much to stay

Cause no matter what I do I'm losing you  
Can never keep the air under my shoes  
I'm comin' in closer  
I'm comin' in closer  
But don't matter what I do I fall so fast  
Nothing but the air inside my grasp  
Like I'm reaching for stars  
It's like I'm reaching for stars  
On a trampoline  
I'm always on a trampoline

Destination  
Are you just a flash sensation?  
Cause baby's workin' overtime  
A little spooky action  
It's always two I see inside of one reflection  
A million lights between us

Cause sanity is my resistance  
You're the madness at a distance  
Suspended in the sky  
Tangled in a dream together  
Bound by design forever  
Or are you just passing by?

Cause no matter what I do I'm losing you  
Can never keep the air under my shoes  
I'm comin' in closer  
I'm comin' in closer  
But don't matter what I do I fall so fast  
Nothing but the air inside my grasp  
Like I'm reaching for stars  
Feels like I'm reaching for stars  
On a trampoline  
I'm always on a trampoline

Then you fill up the lungs of my love like a balloon  
You fly me so high oh baby I can touch the moon

But gravity is my resistance  
Little fighter at a distance  
Always too far away  
Tangled in a dream together  
Bound by design forever

Too much to stay

Cause no matter what I do I'm losing you  
Can never keep the air under my shoes  
I'm comin' in closer  
I'm comin' in closer  
But don't matter what I do I fall so fast  
Nothing but the air inside my grasp  
Like I'm reaching for stars  
Feels like I'm reaching for stars  
On a trampoline  
I'm always on a trampoline
