

Make a Plan

Diane Schuur

Why don't we take a little time to make us a plan with a little
more time we can do what we can put the whole thing back
Back together again

Why don't we wait a little longer to light that fuse we got not
hing to gain and everything to lose we gotta do what we can
To get together again

We got one wheel on the shoulder and we're about to lose contro
l

Make a plan, we gotta do what we can we gotta get ourselves bac
k together again
Wait a little bit longer to light that fuse we got nothing to g
ain and everything to lose

We gotta go somewhere just me and you and do a few things that
we used to do and take a little time and just try to unwind
Cause if we don't we might jump the gun yeah we gotta stop what
might become another losing fight
Let's get together tonight

We got one wheel on the shoulder and we're about to lose contro
l

Make a plan, we gotta do what we can we gotta get ourselves bac
k together again
Wait a little bit longer to light that fuse we got nothing to g
ain and everything to lose

We got one wheel on the shoulder, we're about to lose control

Make a plan, we gotta do what we can we gotta get ourselves bac
k together again
Wait a little bit longer to light that fuse we got nothing to g
ain and everything to lose

Make a plan, we gotta do what we can we gotta get ourselves bac
k together again
Wait a little bit longer to light that fuse we got nothing to g
ain and everything to lose

Make a plan, we gotta do what we can we gotta get ourselves bac
k together again
Wait a little bit longer to light that fuse we got nothing to g
ain and everything to lose
