

## No Time for True Love

Diane Schuur

You and I've been friends so long but only casual acquaintances  
I have never thought of you as someone I should I love  
Never saw you in my dreams  
Up until tonight, you were always just a friend  
So what's going on  
In our hearts we both know  
There's a name for this old familiar feeling

This is no time for true love  
Somebody else already own my heart  
This is no more time  
What are we thinking of  
It seems like you and I  
Are playing around with fire  
And this is not the time for love

Walking down fifth avenue on a cool summer evening  
Stopping every block or two just to see the sites  
Suddenly you're in my arms, just one kiss

Oh what could be the heart  
Are we losing our control  
Is this as far as we should go  
Can't you see  
Our resistance is crumbling

This is no time for true love  
Somebody else already own my heart  
This is no more time  
What are we thinking of  
It seems like you and I  
Are playing around with fire  
And this is not the time for love

It seems like forever is gonna be a long time knowing  
You are the one I should be known to

This is no more time  
What are we thinking of  
Maybe in another life, we could've tried  
This is not the time for love  
This is not the time for love
