

# Cold

Dianne Reeves

The signs were everywhere  
Maybe you were in denial or you just didn't care  
I been standing in the shadow of the light we use to share  
Now my heart is tired of reaching and I've grown cold, so cold  
Never in my wildest dreams did I think I would feel this way  
You were the greatest story I ever told  
I believed in the life we made the love we gave through the laughter and the  
rain  
But you took my love for granted and I've grown cold  
Your I'll do better next time kisses  
That brought me right back to you  
Are frozen in the photographs of who I used to be  
And time has washed away my sadness  
Love has made me brand new  
And I can finally say that I 'm over you  
I am better now without you  
So much better now  
There's nothing left to say  
Got my life back, my swagger  
So much better now  
So I'll be on my way  
I wish you peace and happiness  
I harbor no regrets and all the very best for you to hold  
You see I don't want to live with the bitterness of angry ghost  
That haunt you form the past  
I just need some love and shelter from this cold  
Your I'll do better next time kisses  
That had me running right back to you  
Are frozen in the photographs of who I used to be  
And time has washed away my sadness  
Love has made me brand new  
And I can finally say that I 'm over you  
I am better now without you  
So much better now  
There's nothing left to say  
Got my life back, my swagger  
So much better now  
So I'll be on my way  
I am better now without you  
So much better now  
There's nothing left to say  
Got my life back, my swagger  
So much better now  
So I'll be on my way  
I'll be on my way; I'll be on my way with a smile on my face  
Yeah, Oh  
Oh oh oh oh oh oh oh  
Oh oh oh oh oh oh oh  
I gotta go I gotta live I gotta be me yeah oh  
Gotta go gotta go now ahhh  
I am better now without you  
So much better now  
There's nothing left to say  
Got my life back, my swagger  
So much better now
