

I Use The Soap

Dickey Lee

I use the soap to wash the dirt off my face
I'll write with pencil so then I can't erase
But what's to do when someone's taking my place with you with you
ou

I know to stop when the light turns to red and when it rains I
know to cover my head
But what's to do when I wished I were dead over you over you over
er you

La la la la la la la la la la la la let 'em to ride off tomorrow
w

La la la la la la la la la la la la hopin' to wash off the sorrow
ow

I hope to find that the world was not there
It seems to me when I'm down you did not care
And my ambition vanished into thin air long with you with you
I use the soap...
