

You Make It Look So Easy

Dickey Lee

Old friends say that they seen you around they say that you're
wearing a veil
You're out and around with the new friends you've found
If you're lonesome and no one could tell
You can stop to tell me that you're doing fine I smile but I'd
rather not know
It hurts me to know how you're spendin' your time if you miss m
e it sure doesn't show
You make it look so easy Lord but no time it looks like you're
free

I suppose you've become quite a girl about town you're welcome
wherever you go
And you seem so at home in the new world you've found but to me
I just can't let go
You make it look so easy...
