

# I Hate That You Love Me

Diddy - Dirty Money

Are we living in vain ..are we living in pain  
Girl remember my name ..and whatever remains  
After we walk on white sand ..lets travel in style  
Just want to see you happy and smiling  
I can change your life in one flight, lets take off tonight, come on  
We go up ..we go down  
Love is in ..then its out  
We can tell ..tell by now  
If it wont ..work out

Lets not forget ..back in Brooklyn  
Where the future ..first began  
Lets start again ..cant be over  
That's what I told her ..and then she said

I hate that you love me so much boy  
I hate that you hurt me so much boy  
I hate that you love me so much boy  
I hate that you hurt me so much boy  
I hate that you love me

One time is enough for me c'mon  
Close your eyes, there's much to see  
So lets jump and both touch the clouds, and we never come down  
Its amazing the view is ..  
On top of the world where even the air is all brand new here  
Fireworks like new years..  
Hurt is old news, why would you shed new tears  
How can you ..trust in love  
When our time ..our time is up  
If I leave ..will you  
Walk away ..from the truth

Lets not forget ..back in Brooklyn  
Where the future ..first began  
Lets start again ..cant be over  
That's what I told her ..and then she said

I hate that you love me so much boy  
I hate that you hurt me so much boy  
I hate that you love me so much boy  
I hate that you hurt me so much boy  
I hate that you love me

Things I know now, don't allow me to turn back  
We been through it all but now I just want my heart back  
And I could walk away but see your love is my weakness  
Oh' it could be pointless to try and that's why

I hate that you love me so much boy  
I hate that you hurt me so much boy  
I hate that you love me so much boy  
I hate that you hurt me so much boy  
I hate that you love me
