Worth the Wait

Didirri

He loves his smile but hates its charm
She only likes it when he's calm
You felt this shadow of her throne
Maybe she just shades the sun

They'll stay apart until the date
When weren't to be is worth the wait
There's a soft and subtle hum
That paints the roses with the guns
There's too much other with the one
But that's okay if I don't run (Ooh...)

You run so fast, you left me an open gate
To weren't to bein' worth the wait
But weren't to be is worth the wait

Still he worries about the bends
Whether they can reach the end (Ooh)
Just see the tracks are running straight

Well, maybe they should just check the brakes

Stay apart until the date
When weren't to be is worth the wait
There's a soft and subtle hum
That paints the roses with the guns
There's too much other with the one
But that's okay if I don't run (Ooh)

You run so fast, you left me an open gate
To weren't to bein' worth the wait
Oh, weren't to be is worth the wait
Weren't to be is worth the wait

That's not worth the heavy weight
How long must she wait?
Weren't to be is worth the wait
Weren't to be is worth the wait
Weren't to be is worth the wait
