

## Chances

Dido

All I did today  
Was wake up and watch TV  
Another wasted day  
But that's alright with me  
When shadows turn to clouds  
Good choices won't be made  
Until tomorrow comes  
But that's alright with me

I will stand and wait until it's mornin'  
And I won't make it lyin' down  
I will close my eyes so I can't see you  
And I will have all my chances again  
I want all of my chances again

And as the sky turns red  
The streetlights coming on  
I could stay up all night, or go to bed  
Oh neither's right or wrong  
Until tomorrow comes  
Until tomorrow comes

I will stand and wait until it's mornin'  
And I won't make it lyin' down  
I will close my eyes so I can't see you  
And I will have all my chances again  
I want all of my chances again

I will stand  
I will stand

I will stand and wait until it's mornin'  
And I won't make it lyin' down  
I will close my eyes so I can't see you  
And I will have all my chances again  
I want all of my chances again
