

Together

Dido

Ladies and gentlemen
We have begun

We don't need the news
Just need the weather
We can tell the time
We'd prefer getting better

We're like the night before
We'll love the morning after
We spend time alone
We fit together
We fit together
We fit together
We fit together
We fit together
We fit together

We don't need the news
Just need the weather
We can tell the time
We'd prefer getting better

We're like the night before
We'll love the morning after
We spend time alone
We fit together
We fit together
We fit together
We fit together
We fit together
We fit together
We live together

We fit together
We fit together
We fit together
