

Waves of Dream

Die Form

Life is forever lost, love is forever lost,
even light is colder, even blood is colder, colder.

Come with me, come with me,
come with me and save me,
come with me, come with me,
come with me and save me, save me.

Life is forever lost, love is forever lost,
even light is colder, even blood is colder, colder.

Come with me, come with me,
come with me and save me,
come with me, come with me,
come with me and kill me, kill me.
