

Extraordinary Me

Die Happy

You said happy birthday to your mum
And then you asked me to become...
Your wife doesn't seem to be my job
It's not a perfect timing to break up
Everybody said I blew my chance
Doesn't everybody understand?!

It's the legendary - extraordinary me
I'm a definition of the fucked up world
It's the elementary - extraordinary me
I'm a chaos queen - very proud to be
The super legendary - extraordinary me

Everytime you come and visit me
I see your twice or disappear
Don't you know you're boring me like hell
I prefer to go back to my cell
Usually I do collaborate
But I don't want myself to overrate
