

# Fight To Be Yourself

## Die Toten Hosen

There's seven billion people  
How can you be yourself?  
Seems all they are screaming at you  
But none of them can help  
Guns are soon in media  
Governments and guards

Forcing their opinions on you  
Is that really what you want?

You better look in the mirror  
You better watch your step  
You know they always get you  
And they'll give you no respect

They're forcing their opinions on you  
Is that really what you want?

You've got to fight to be yourself  
And don't let anyone else  
Tell you how to live

You want to be a believer  
But don't know what to believe  
How about if what they say is fiction  
Not reality

You've got to fight to be yourself  
And don't let anyone else  
Tell you how to live  
You've got to fight to be yourself  
And don't let anyone else  
Tell you how to live

It's easy, it's easy, easy to be yourself  
It's easy, it's easy, easy to be yourself  
You've got it, you've got it, you've got it anyway  
You've got it, you've got it, you've got it anyway

You've got to fight to be yourself  
And don't let anyone else  
Tell you how to live

You've got to fight to be yourself  
And don't let anyone else  
Tell you how to live  
You've got to fight to be yourself  
And don't let anyone else  
Tell you how to live
