

# Conquer The World

Die Trying

They used to say we were born to lose that we'd never make it  
our whole lives through that we'd be stuck in this dead end town

with the whole world against us we set out on our own to find  
our way of life and our way around they tried to say we'd be  
nothing they only said it just to keep us down they we're never  
gonna get me down they were never gonna keep us down

'Cause I am everything I said I'd ever be  
so f\*\*\* you and f\*\*\* your town cause I got dreams  
I'm gonna conquer the world  
just you wait and see  
I'm proving you wrong every single day

I remember as if it were yesterday  
the good old days back in nineteen-ninety-three  
through thick and thin you are my blood brother  
we all got drunk and sang our songs  
it's what we did for fun  
they tried to say we'd be nothin' they only said that just to keep  
us down but you can't hold me down they keep runnin' their  
mouths sayin' somthin' that I don't want to hear

now we're older and we'll never be the same  
we don't live by the rules and that will never change
