

One Day At A Time

Die Trying

Relationships they sting like
Bees to butterflies
You must remember to keep a cautious mind
It's alright baby just sit there waiting
It's alright darlin'
Tell yourself

It's over, It's over, It's over
It's over, It's over
Tell yourself
You got to swallow this down
You got to make a stand
You got to take this one day at a time
As you swear

At times this all seems so hard
Hit or miss you cry
You must remember to keep a cautious mind
It's alright baby just sit there waiting
It's alright darlin'

We'll go our separate ways
And take it day by day
When there's nothing left to say

You got a sad song
I got a sad song too
My sad song

You got to swallow this down
You got to take this one day at a time
As you swear

You got to swallow this down
You got to take this one day at a time
As you swear

You got to swallow this down
You got to take this one day at a time
As you swear

You got to swallow this down
You got to take this one day at a time
As you swear
