

Country & Cold Cans

Dierks Bentley

I like my trucker hat with some cheap shades
I like my blue jeans with the rips and fades
I like my music with a little bit of twang
And crankin' up the Hank with my old dog Jake

Yeah I can't have one without the other
Some things just go hand in hand don't they brother

Gotta have some cold beer with my country music
Gotta have my baby rockin' with me to it
Just like this old guitar's gotta have its six strings
Like an empty shot glass gonna need some whiskey
Some things just go hand in hand
Yeah and for guys like me that's country and cold cans

I like you tan legs with your cutoffs
I like your painted toes with your flip flops
I like your summer dress with your cowboy boots
And the little thing you do with the speakers going boom

Yeah I can't have one without the other
Some things just go hand in hand don't they brother

Gotta have some cold beer with my country music
Gotta have my baby rockin' with me to it
Just like this old guitar's gotta have its six strings
Like an empty shot glass gonna need some whiskey
Some things just go hand in hand
Yeah and for guys like me that's country and cold cans

So grab a Bud Light or Bud Heavy
From the cooler in the bed of my Chevy
Doing 12 ounce curls, listening to Merle Haggard y'all
It just makes me happy, are you with me

We gotta have some cold beer with our country music
Gotta have our babies rockin' with us to it
Just like this old guitar's gotta have its six strings
Like an empty shot glass gonna need some

Gotta have some cold beer with my country music
Gotta have my baby rockin' with me to it
Just like that old banjo's gotta have its five strings
Like this empty shot glass gonna need some whiskey
Some things just go hand in hand
Yeah and for guys like me that's country and cold cans

Some things just go hand in hand
And for me man that's country and cold
Country and cold
Country and cold cans

Country and ice cold cans
