

# Midnight Radio

Dierks Bentley

They come from Kentucky, Mississippi and Alabam  
Way down in Texas from all over this land  
Each one has a dream and a thousand different goals  
But the one that they all share is that midnight radio

They're gonna be big stars in big cars and wear nudie suits  
Featured on the Opry in rhinestone boots  
They'll be ridin on a rainbow to a wall hung with gold  
Hillbilly dreams on the midnight radio  
Hillbilly dreams on the midnight radio

It started with a fiddler, then banjo and guitar  
And Roy Acuff was its first singing star  
Hank and Minnie and Mr. Monroe  
We all sang with them through that radio

We were big stars in big cars and wearin nudie suits  
Featured on the Opry in rhinestone boots  
We were riding on a rainbow to a wall hung with gold

This world keeps on changing for the better they say  
But the more we move ahead the more I miss the old ways  
Hey I don't mind the modern and as far as I can see  
I'll keep trying to make the future part of history

And be a big star in a big car and wearin nudie suits  
Featured on the Opry in rhinestone boots  
I'll be riding on a rainbow to a wall hung with gold
