

# Forever

Diesel

Give me your time  
Give me one more time  
Let me feel it align  
Just to ease my mind  
Give me a space  
Give me one more place  
Let me feel the grace  
An inviting face

A space, a time  
An arc, a line  
Give me a sign  
Give me one more sign  
A place, a time  
An arc, a line  
A kiss, a smile  
A lie

It felt like forever  
It's over before it even starts  
I'll see you whenever  
I'm needing a friend to sign my heart  
All these beginnings just wind up as endings  
My soul, it cries  
But it felt like forever  
Forever

Give me a truth  
Something I can use  
Something of my youth  
Just to ease my blues  
Give me a fire  
Light of my desire  
Take me to that time  
When we could get higher

The truth of youth  
To ease my blues  
Give me that thing  
That'll free me loose  
The light, the fire  
That youth desires  
A kiss, before  
I die

It felt like forever  
It's over before it even starts  
I'll see you whenever  
I'm needing a friend to sign my heart  
All these beginnings just wind up as endings  
My soul, it cries  
But it felt like forever  
Forever  
Yeah it felt like forever  
Forever

All these beginnings just wind up as endings

My soul, it cries  
But it felt like forever  
Forever  
Yeah it felt like forever  
Forever  
Yeah it felt like forever  
Forever  
Yeah it felt like forever  
Forever
