

In Reverse

Diesel

Car goes up, car goes down
One more horse in this one horse town
Maybe I've been here before
I feel him but I can't be sure

Time to think about the love we've made
Search for rose and a golden blade
Once a child, twice a curse
Now we're living life in reverse
Ooh...
Ooh, yeah

Travelin' with the dim lights on
Waiting for a familiar song
Rhythm got a hold of me
Can't be more than it's meant to be

Chasin' dreams 'til you're all disturbed
While we're looking for the holy grail
City lights become a blur
Now we're living life in reverse
Ooh-ah...
Ha-ah...

Time to think about the love we've made
A search for rose and a golden blade
Grab your keys, take a hold of hers
Now we're living life in reverse
Ooh-ah...
Ha-ah...
