Make It Right

Diesel

Make it right in a song
Of all the things that were wrong
Throw it all out the door
With my love, I'll sweep the floor

'Cause we gotta get back to the simple things
Before it all come undone
'Cause the music we made was so sweet to my ears
There's a song in my head that's yet to be sung

I can't believe the things you're saying
Or the things you do
I can't believe it's true, because I love, love you
Dream's been shattered, love don't matter
There's nothing we can do
Say it isn't true, because I love, love you

I can't pretend it wasn't there
Now you saying that you don't care
But if you search for something real, mmm...
Look no further than what's right here, yeah

'Cause we gotta get back to the simple things
Before it all come undone
'Cause the music we made was so sweet to my ears
There's a song in my head that's yet to be sung

I can't believe the things you're saying
Or the things you do
I can't believe it's true, because I love, love you
Dream's been shattered, love don't matter
There's nothing we can do
Say it isn't true, because I love, love you

Gonna make it right
Gonna make it right, right now

Ooh-hoo-hoo...

'Cause we gotta get back to the simple things
Before it all come undone
'Cause the music we made was so sweet to my ears
There's a song in my head that's yet to be sung

I can't believe the things you're saying
Or the things you do
I can't believe it's true, because I love, love you
Dream's been shattered, love don't matter
There's nothing we can do
Say it isn't true, because I love, love you
