

Saviour

Diesel

Oh, my love
There are far too many ways
Haven't found the words to say, my love
Oh, my god
So many things I've seen
Have you wondered where I've been, my god

Till my saviour walks by
I will find it there in your eyes
'Cause I've learned enough to cry
And I don't know why
But I know you need a saviour

Oh, my dream
I have wished for many things
You've got to question what it brings, my dream

Till my saviour walks by
I will find it there in your eyes
'Cause I've learned enough to cry
And I don't know why
But I know I need a saviour

Oh, my heaven
As I wander through this place
You're the only thing with grace, my heaven

Oh, my love
Oh, my love
