

**You**

**Diesel**

Never really could forget  
All the times I never got to hold you  
Of all the people that I've met  
There's some thing's I really should've told you

'Cause you made me feel like something  
With your kind of loving  
It's always there with you  
You made me feel like living  
It's always on the giving  
Who'd have thought that you?

And all the money that I spent  
On sideshow alleys that just only bored me  
You provided acrobats  
A pageant every day, there was so much to see

'Cause you made me feel like something  
With your kind of loving  
It's always there with you  
You made me feel like living  
It's always on the giving  
Who'd have thought that you

'Cause you made me feel like something  
With your kind of loving  
It's always there with you  
You made me feel like living  
It's always on the giving  
Who'd have thought that you

You made me feel like something  
With your kind of loving  
It's always there with you  
You made me feel like living  
It's always on the giving  
Who'd have thought that you
