Do you wonder about me?
Do you think that I've been losing sleep
Over what you did to me
I can tell you I've been dreaming and
Did you think that you could
Did you think that you could
Did you think that you could
Bring me down
Well go tell your friends
No this isn't the end
No I promise you I will be
Sticking around

I've been holding my breath
For way too long
On this one
And I don't know how long I can
Keep this up
I'll play the same songs
Over and over
Convince myself I'm grown
I'm older
And I just want you to know
That

I'm thriving thanks for asking
I'm thriving thanks for asking

I will never hate myself
The way you want me to
And I am tired of playing
By all your rules
I'm done explaining
So stop complaining
And I just want you to know
That

I'm thriving thanks for asking
I'm thriving thanks for asking

I hope my hair looks cute
When I run into you

I hope my hair looks cute
When I run into you

Do you wonder about me?

Do you wonder about me?
I'm thriving thanks for asking me

Do you wonder about me?
I'm thriving thanks for asking me

Do you wonder about me?
I'm thriving thanks for asking me

Do you wonder about me?
I'm thriving thanks for asking me

Do you wonder about me?
I'm thriving thanks for asking me

Do you wonder about me?
I'm thriving thanks for asking me
