Funkay
I live Brooklyn like year 24 for sure
Saw C-know in my tennis skirt(?)
And the kick hurts so good that I gotta sorta accents for this
Now here's a nation for my
Nation cuz I place you on the dynomite
Right? The creamin' to schemin' to get it
Right demeans almighty dolla
The green power, let loose for the hour
I chose the Black Power, extra fly joint for mocha to yellow paper
And you know I don't delay
Together with my honey like silk to sew
We grow and take you back to like afros
And no quittin or gettin jumped by the system
Its all day, all play got verbs and such
And cuts and crew, no blue eyes
To emulate, some straight but yea we straight up
Funkay
Ease back, the g's back as an o.d. gettin
The sun sets, you vex, we gets, mad
Funkay
East coast to west we stays fresh
Smoke rise from the borrough where that black cool blow(?)
The globe spins, jims is drop
No fakin, no bakin three bridges fo money makin
Crooklyn, the ep swinger's lounge-out spot
Roll when I pass lake up drop my saz
Grab my mic-ro, you know how we do in the joint
Do a borrough check to see exactly who in the joint
Hot spots, city streets lot spots and jeeps
As a flow-er I'm Nile, rivers of style
(fresh kid)
Yea, stories complete
(fresh kid)
Rollin on them New York streets
With them no-poor beats at the parliment
7s up C-know steelo no equal, but the sun and that's
Funkay
Ease back, the g's is back as an o-d gettin
The sun sets, you vex, we gets, mad
