

## Braids

Digga D

You don't care about the clout, you don't care about the 'Gram  
You don't care that I'm a rapper but should be my biggest fan  
I introduce you to the fam', hit the block and meet the gang  
Bae, I got the driver waitin', so just tell me when you land  
Got a plan, so it don't matter what he says or she says  
It only matters what Rhys says  
Takin' off your lashes, you been confident these days  
We be catchin' flights on the PJ in PJs, gang shit  
It really gets me pissed off when I see you comment back to fuc  
kin' fake pages on TikTok  
My phone's gettin' switched off  
My temper's like a rocket, I don't even wanna show it when it l  
ift off

Put you on a flight any time I feel alone  
Different time zones got me blowin' up your phone  
In Mexico, France, even call you back home  
Marbella, Barcelona, I can't wait to bring you home  
She got braids in her hair with her heart on the side  
With my heart on my sleeve, so don't play with my pride  
To talk about my feelings, I gotta get high  
There's a different type of feeling when I'm lookin' in your ey
