

Bleed For Me

Digital Daggers

You won't hear the footsteps
But I'll be following
You won't feel the shadows
But they'll be closing in
You won't see me coming
But I'll rip you at the seams
You won't touch the silence
But you can hear the screams

You won't taste the poison
Hidden in my kiss
You won't face the darkness
So I'll just walk right in
You can't outrun the wicked
I'll keep you standing still
You refuse to be the hunted
But I'm out for the kill

So I creep
To watch you bleed for me
So I creep
To watch you bleed for me

Bleed for me
Won't you bleed for me
On your knees for me
Won't you bleed for me
Bleed for me
Won't you bleed for me
On your knees for me
Won't you bleed for me

So I creep
To watch you bleed for me
So I creep
To watch you bleed for me

Bleed for me
Won't you bleed for me
On your knees for me
Won't you bleed for me

So I creep
To watch you bleed for me
