

Blink

Digitalism

It's not here for the long term
And will change in seconds
It's not here for the long term
And will change in seconds
It's not here for the long term
And will change in seconds
It's not here for the long term
And will change in seconds

The time is now
We're all in, all in, all in, all in
The time is now
We're all in, all in, all in, all in
The time is now, don't stop here now
The time is now
We're all in, all in, all in, all in

Would you run or would you stay
Another love will run away
It's not here for the long term
Another light will break away

The time is now
The time is now

Accept the sign, there ain't no right time
Make up your mind, move from the sideline
Spontaneous, blink of an eye
Spontaneous, blink of an eye

So we run out of time
But make a move in seconds
Don't stop down the line
Make a move in seconds
It's gonna be re-arranged
Cause that's just what happens
It's not here for the long term
Cause things will change in seconds

The time is now
We're all in, all in, all in, all in
The time is now
We're all in, all in, all in, all in
The time is now, don't stop here now
The time is now
We're all in, all in, all in, all in
