Yeah, woohoo There's something in the air There's something in the air There's something in the air Now where has it been? I mean the good old wild days Became a bit too lame Just take a look at my place It's such a mess But i'll be outta this space as soon as you tell me where the night is You have to set up Bring it on Forward! Yeah, woohoo There's something in the air There's something in the air Yeah, woohoo There's something in the air It's been quite of a while since I could experience your brightness Now you've got a brighter smile and i think I'm going to like it Talking 'bout the better things, you know how to maximize Everything around you will become supersized You have to set up Away from what matters And get it prepared Forward! Yeah, woohoo There's something in the air There's something in the air Yeah, woohoo There's something in the air Yeah, Woohoo There's something in the air 'Cause I've been dreaming we could be the fire for this night Can't stop You have to set up We could get so wasted if you would have come (Bring it on) We could get so wasted if you would have come (Forward) We could get so wasted if you would have come (Set Up)

We could get so wasted if you would have come

(You have to set up)

We could get so wasted if you would have come (Bring it on)

We could get so wasted if you would have come (Forward)

We could get so wasted if you would have come (Set ${\tt Up}$)
