

# Red Lights

Digitalism

Slowing down  
Stole a kiss  
At every red light  
Up they go  
I wonder which  
One that you're on

All around  
Moving in and out  
Of my mind  
A while ago  
Somehow I missed the sign

Without you I got nothing to lose, whoa  
Without you I got nothing to lose, whoa  
You're set free and I'm there to lose but I'm  
Getting lost somewhere I'll be there soon  
Without you I got nothing to lose, whoa

Falling down  
Speeding through  
Every red light  
Up you go  
I wonder which  
Flight that you're on

All around  
Moving in and out  
Of my mind  
A while ago  
Somehow I missed the sign

Without you I got nothing to lose, whoa  
Without you I got nothing to lose, whoa  
You're set free and I'm there to lose but I'm  
Getting lost somewhere I'll be there soon  
Without you I got nothing to lose

I wonder who I'd be  
Without you  
I wonder who I'd be  
Without you  
I wonder who I'd be  
Without you

Without you I got nothing to lose, whoa  
Without you I got nothing to lose, whoa  
Without you I got nothing to lose, whoa  
Without you I got nothing to lose, whoa

Without you I got nothing to lose, whoa  
Without you I got nothing to lose, whoa  
You're set free and I'm there to lose but I'm  
Getting lost somewhere I'll be there soon  
Without you I got nothing to lose, whoa
