

Little Birds

DIIV

Losing the war
You got another one up against the wall
Wind fall out
From another one who wants the night
To fill the day

Go on
You got another one up against the wall
Can't flow out
Let another one pass the test
But feel the same

Make time for the war
I can't find my time
This one's for the world
I'm losing my mind
Changing for the worse
Fighting all the time
Came home in a hearse
Leave the past behind

Losing the war
You got another one up against the wall
Wind fall out
Pass another resolution
Ghosts and little birds

Go on
You got another one up against the wall
Can't flow out
Let another one pass the test
But feel the same
