

**3AM**

**Dijon**

I'm usually not the type to stay up all night  
But something makes me wanna set it off tonight  
I don't know why  
Maybe it's the lights  
We could move towards the floor, that's if you want to  
If you don't already know it girl, I want you  
I don't know why  
But it can just be the lights

And I hope you're thinking the same thing  
And I don't really want conversation  
We should get closer  
A little closer, yeah  
Or maybe we can just do it for a min

I know when it's late I should leave  
But I need  
One more dance, one more dance, one more dance  
Just one more dance with you  
And it just has to stay to you and me  
Gonna need  
One more dance, one more dance, one more dance  
Girl, one more dance with you  
Hey, with you  
With you  
Hey, with you

Your mind has got you hoping, I can feel it  
And I'm trying not to think when it's beginning  
I don't why, but it's so hard to describe  
First we touch, then we move  
Then we touch again  
And every time that we do  
I feel the rush again  
I don't know why  
Don't wanna leave you tonight

And I hope you're thinking the same thing  
And I don't really want conversation  
We should get closer  
A little closer, yeah  
Or maybe we can just do it for a min

I know when it's late I should leave  
But I need  
One more dance, one more dance, one more dance  
Just one more dance with you  
And it just has to stay to you and me  
Gonna need  
One more dance, one more dance, one more dance  
Girl, one more dance with you  
Hey, with you  
With you  
Hey, with you

I can't wait any longer  
Oh, I can't wait (oh, oh)

Don't hesitate (oh, oh)  
Don't hesitate (oh, oh)  
Don't hesitate (oh, oh)
