Wait a minute, my batteries low
Let me...

And baby
If you want to
I spotted you far away from here
But maybe, If you want to
We could go just far away from here
Well, I don't wanna go to sleep without you near 'cause I...
I don't wanna go to sleep without you here babe
Let's love
What you want?
Let's love
'Cause I want it, and I can't deny
All that shit that you threw aside
Let's love
That's what you want
Let's love
(That's what you want)
'Cause I want it, I can't deny
All that shit that you threw aside
And I don't want to go to sleep without you near babe
(Without you here)
