

## Intro

Dijon

You sick of the same things  
You said that they don't do it for you, no  
Quit all the lames then  
Cooking something new for you, oh  
I mean the kinda thing that make you wanna take the night off  
So quit all that playing girl and we can cut them lights off

Let me hit you with a new thing, a thing  
I know that you're trippin' but it's cool  
I'ma hit you with a new thing  
I know I can take you higher  
I know I can take you high

You ask me where I've been again  
Oh, you say you haven't felt this in a while  
You fronting like you innocent  
Girl I know you see me lay it down  
If you're really down  
Best believing I'll come back round  
It ain't to play games with you  
It's to lay with you  
You might do some shit that makes me stay with you

You might be my new thing, new thing  
I know that you're trippin' but it's cool  
I'ma hit you with a new thing, new thing  
I know I can take you higher  
I know I can take you high

Let me hit you with a new thing, new thing  
I know that you're trippin' but it's cool  
I'ma hit you with a new thing, new thing
